⁵*Department of Philosophy, {E.E,F.F}@university.edu*

Keywords: Maximum 6

Abstract:

The summary must not exceed 10 lines.

1 Initial Submission

Submit your paper proposal in the form of a clear and concise text of one to two pages (300 to 600 words), figures included, allowing scientific evaluation. This proposal must be in PDF format and **A4 size imperatively** (US letter format is not accepted).

In order to have a certain degree of homogeneity in the presentations, we ask that you comply with the indications given in the present template: font (*Times New Roman*), sizes of letters (*14 for General titles, 11 for the titles of the sections, 10 for the text and the subsections*), and sections (*numbered headings 1./1.1./1.1.1.*). The text and the size of figures comply with the margins of this note (2 cm). The text should be justified. Tables, figures and captions should be centred on the page.

2 Full paper submission

After agreement of the Scientific Committee, planned to be delivered on January 25, 2019, the authors of invited lectures and accepted oral communications and posters should submit their full article for February 22 at the latest. The maximum length of the articles is 8 pages. The page number can be increased to up to 12 pages after consultation and acceptance of the Scientific Committee. The article must have the following structure:

1. Title of the article
2. Authors and affiliations
3. Keywords (2 x 4 words maximum, English and French)
4. Abstract (10 lines maximum each)
5. Introduction
6. Text of article
7. Conclusions
8. Acknowledgements (if applicable)
9. References

3 Formats

The paper must be written in English. During the workshop, the speech can be in French or English, although the latter is preferred. Furthermore, slides and posters must be written in English, even if the presentation is given in French. The workshop proceedings will be available online on the website of URSI-France. Table 1 shows the page margins to use.

Page margins, A4 format	
	mm
Top	20
Bottom	20
Right	20
Left	20

Table 1 – Page margins

3.1 Figures and tables

Figures must be placed appropriately in the document, as close as possible to the reference to the figure in the text (see Figure 1). Both figures and tables must be centred horizontally on the page. Large figures can be turned sideways (vertical alignment). In that case please ensure that the top is always on the left side of the page. In the case of an illustration consisting of several figures, the images can be grouped into one *figure* environment centred on the page (see Figure 2).

Captions: All captions must be centred under the illustration. Use single spacing if the caption contains more than one line (but please avoid such a long caption if possible). All captions must be numbered consecutively, for example, Figure 1, Table 1, Figure 2.

Figure 1 – Figure placement

Figure 2 – Placement of several figures

3.2 Equations, symbols and units

Equations: equations should be numbered consecutively in the paper. The number is put in brackets and positioned to the right of the equation. Leave a blank line before and after the equation.

$$x = x_0 - c \frac{X - X_0}{Z - Z_0} ; y = y_0 - c \frac{Y - Y_0}{Z - Z_0} \quad (1)$$

with

c = focal length

x, y = image coordinates

X_0, Y_0, Z_0 = origin of projection

X, Y, Z = object coordinates

Symbols and units: use the symbols of the International System of Units. If you use special characters or symbols, please explain them in a list.

3.3 Page footnotes

Footnotes appear in the text with a number¹ superscript. Place the notes at the bottom of the page, separated from the text above by a horizontal line. The font of the footnotes must be identical to that used for the section text.

4 Section

4.1 Subsection 1

After acceptance by the scientific committee, some authors will be invited to submit their papers for publication to a topical issue of Physics reports of the Academy of Sciences or the Revue de l'électricité et de l'électronique (REE).

4.2 Subsection 2

The workshop will include invited lectures and communications of the following durations:

- 25 min for invited talks and 5 min for question;
- 15 min for communications and 5 min for questions.

5 Conclusion

Bibliographical references should be given in square brackets [1] in the text, numbered from 1 to n according to the order [2] of their appearance in the text.
